1. AN INCREASE IN FILM FOOTAGE PER SPOOL OF "H" CAMERA FILM PRODUCED BY THE 548 RTG IS FULLY ACCEPTABLE AT [REDACTED] RECENT CHURCHDOOR PRODUCTS FROM THE 548RTG HAVE BEEN RECEIVED IN 125 FOOT LENGTHS, I.E., 300 FRAMES, WITH 15 FOOT LEADERS AT HEAD AND TAIL. WE WOULD CONCUR IN [REDACTED] SUGGESTION PER REF B TO DOUBLE THIS AMOUNT OR COULD ACCEPT YET HIGHER FOOTAGES PROVIDING QUANTITY WHEN REWOUND LOOSELY DOES NOT EXCEED CAPACITY OF THE CAN. PHILOSOPHY APPLIES EQUALLY TO THE "B" CAMERA MATERIAL WHICH WAS REPRODUCED BY THE [REDACTED] IN 200 FOOT LENGTHS. WHATEVER LENGTH ADOPTED, RECOMMEND REQUIRE COM- PARABLE PARTS OF THE ORIGINAL NEGATIVE AND THE DUPES BE OF SAME LEN- GTH.

2. [] CONTINUES TO REQUIRE THE HARD COPY ROUTE SEARCH AND THE MISSION TARGET LIST FROM THE 548 RTG. IT ALSO REQUIRES A ROUTE TRACE, AS WAS PROVIDED BY THE [] ON AN OZALID FORMAT ON A 1:1 MILLION WAC BASE. DESIRE UNFOLDED TO AVOID CREASING.

3. TRACKER FILM THOUGH OF REDUCED APPLICATION ON OFF-SHORE, OBLIQUE PHOTOGRAPHY HAS CONTINUED UTILITY AT [REDACTED], PRIMARILY IN DIRECT SUPPORT TO YOUR OPERATIONS PLANNING. [REDACTED] RECEIVES ITS COPY AS DO ALL OTHER STATESIDE CUSTOMERS THROUGH STATESIDE REPRODUCTION AFTER THE ORIGINAL NEGATIVE IS RECEIVED HERE VIA THE 548 RTG. THE LATTER IS THOUGHT TO RECEIVE ONLY ONE TRACKER COPY FROM [REDACTED] OR PRODUCES ITS OWN, THE ONLY KNOWN COPY REQUIRED WITHIN PACOM. THE 548 RTG REFERENCE TO TRACKER SHIPPING COSTS THEREFORE IS UNCLEAR.
